

# O'Pro Classic 1200W

## ELECTRIC WATER HEATER

### Models 50 to 100

(Vertical wall-mounted)

### Models 50 to 100

(Horizontal wall-mounted)

### Comfort

- Elegant design
- Control knob on the bottom of the tank
- Flat thermometer

### Durability

- Long tank lifetime thanks to O'Pro exclusive anti-corrosive system
- Magnesium anode for strengthened tank protection
- Diamond-quality glass lining
- Pressure relief valve
- Dielectric union
- Specific lip gasket to avoid corrosion around flange

### Installation

- Models available for both horizontal and vertical installation

#### Safe operation:

- IP 24 or IP 25 – full compliance with European standards for electrical safety and user protection

### Energy savings

- Low power with just a 1.2kW heating element
- Mechanical thermostat with integrated security
- High-efficiency water inlet
- CFC-free high-density polyurethane insulation

### User-friendly

- Heating light indicator

**1 DIAMOND-QUALITY GLASS LINING** for long life and reliability

**2** Optimised stainless steel outlet pipe

**3** Hanging jig

**4** Inlet diffuser

**5** Copper heating element

**6** O'Pro anti-corrosive system

**7** Dielectric union

**8** Thermostat

**9** High-density, 0% CFC polyurethane foam

**10 MAGNESIUM ANODE**

**11** External thermometer

**Video:**

**O'Pro**  
TECHNOLOGY

### Exclusive anti-corrosive system

O'Pro technology uses an ohmic resistor to balance out the electric potential of both the tank and the heating element. This prolongs the life of the magnesium anode as well as bolstering protection against corrosion.

## Technical specifications

| Model                                               | Ref.   | Output (W) | Voltage (v) | Heat-up time at 60°C<br>( $\Delta t=50^{\circ}\text{C}$ ) | Standby losses Kw/24h | ESMA energy efficiency |
