

# TSA -01

atlantic

## INDIRECT WATER HEATER

Monovalent 150 to 500  
(floor-standing)

- Dedicated for boilers
- Elliptical pipe heat exchanger
- 1 1/2" sleeve at 50 % of capacity

TSA ranges monovalent fit perfectly to all gas, oil and wood boiler ranges to ensure daily comfort of domestic hot water for a full family. Thanks to innovative elliptical heat exchanger design, heat exchanger has a customized surface per capacity.

### Comfort

- Daily hot water for guaranteed comfort
- Built-in thermometer enables instant tank water temperature display

### Installation

- Front-accessible 1 1/2" sleeve and flange for electric accessories
- Lateral hot water connection
- PVC jacket factory equipped

### Durability

- Outstanding enamel quality challenged by third party audit
- Magnesium anode (according DIN 4753-3) for better tank protection

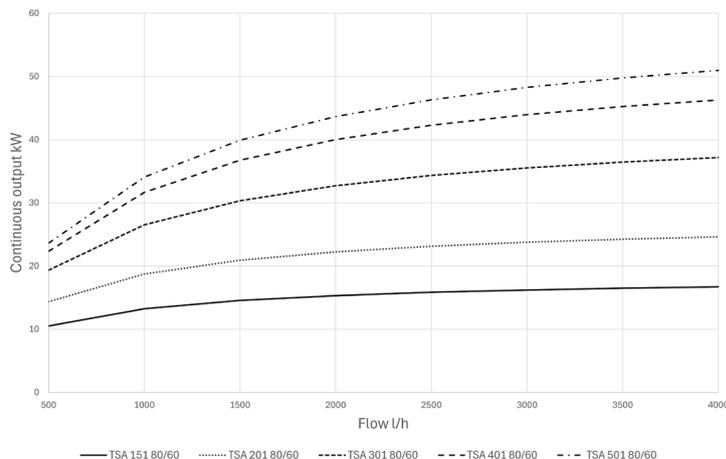

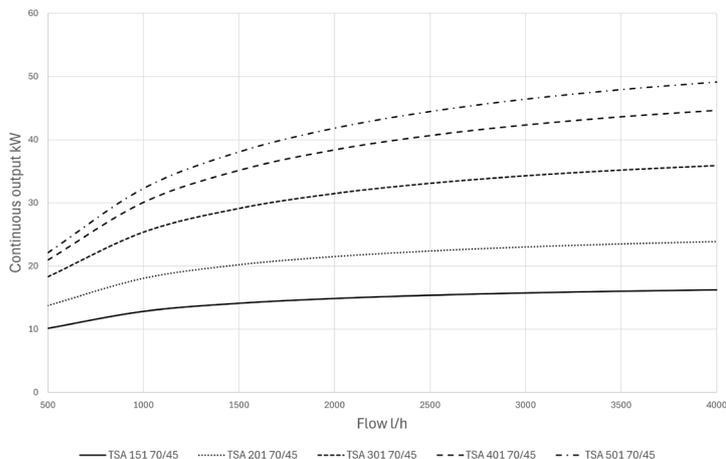

### Energy savings

- ERP class B for full range
- Additional insulation for flange to reduce heat losses
